

My local K-Love station is heard in many businesses around the OKC metro area. I like the fact that I can play this radio station with my children in the car and do not have to worry about them hearing about topics or hearing words I don't approve of. K-Love is the only station I listen to. It helps me be my best wherever I am. On the way to work I listen to it to lift my spirits and put me in the right frame of mind to handle anything thrown at me. I listen to it on the way home from work to put me in the right frame of mind for my family. It is truly a blessing to be able to listen to this radio station and without it on the air there is no point listening to the radio at all.
